

FX1107 PU Adhesive

Description

General NoiseStop Adhesive is a solvent-free, single component, moisture-curing tile adhesive based on polyether polyols. NoiseStop Adhesive is MDI based, contains no volatile monomer and is TDI free. Uses NoiseStop Adhesive is used as an adhesive in the installation of acoustic surfaces using rubber tiles. NoiseStop Adhesive is clear and can be used on coloured tiles. NoiseStop Adhesive can be used on black tiles. NoiseStop Adhesive contains a special accelerator for fast cure whilst minimising the amount of foam generation.
